

The Duncan Regional Hospital MyCare Patient Portal is available to you to access reports, lab results, make appointments and view your health record.

You have four sections available to you.

The Health Record button allows ability to view/print your Health Summary, allergies & conditions, lab results, medications given to you during a visit to the hospital, radiology & medical records reports, preventative care information and visit history.

Health Summary is a document including portions of your Medical Record including allergies, conditions, recent results, medications and visits. You have ability to view any activity on the health summary, create a request for a new health summary, download, send and print the health summary.

Allergies & Conditions lists your allergies and conditions that are in the system. Ability to print is also available.

Results is an area that lists your lab results. You can click on a result to view more details. Ability to print is also available.

Medications is a list of medications you received during any visit at DRH. Clicking on a medication provides more details. Ability to print is also available.

Reports is a list of radiology and medical records reports. Clicking on a report allows you to view it. Ability to print is also available.

Preventative Care includes tests, immunizations and measurements that promote health and disease prevention. Ability to print is also available.

Visit History lists your visits to DRH. Clicking on a visit gives you details such as your Care Instructions and documents to view/print as well as listing your Visit Care Team.

The Medications button allows you to view what medications were given to you during any visit(s) to DRH. Clicking on a medication provides more details. Ability to print is also available.

Appointments allow you to request an appointment by clicking the Request a New Appointment button.

1. Choose the appointment type from the drop down list.
2. Enter the reason for your visit, then click continue.
3. If no preference for time, click No Preference. If you do have a preference, click on AM/PM of the day that would be best for you to have the appointment scheduled. Click Continue.
4. If the Home number displayed is correct, click the radio button next to it. If not, click Other and enter in below it the correct phone number. Click Submit. A team member from DRH will contact you and help complete the appointment.

Profile allows you to update any demographic information such as address and phone number so your information is up-to-date at Duncan Regional Hospital. If any information is incorrect, please click the Update Profile button and correct then Submit.

Contact Us

Contact Us is available throughout the website. You may use it to contact DRH with any questions you may have.

Preferences

Preferences allows you to update user preferences such as email and shows you which patients you have access to on the Patient Portal.

You also have ability to Change Password.

Change Person

If you have access to more than one person on the Patient Portal, you can use the Change person button in the top right corner to choose a different person.

Log Off

Be sure and use the Log Off button before exiting the system.
